VISION PLAN

ANTHEM BLUE VIEW VISION

Anthem's Blue View Vision plan is a PPO plan that offers both in-network and out-of-network benefits. With Anthem's Blue View Vision plan, you have access to independent providers as well as convenient retail stores like LensCrafters®, Target Optical® or JCPenney® Optical and most Pearle Vision locations. You also can order glasses and contacts online through Glasses.com ([glasses.com](https://www.glasses.com)), ContactsDirect ([ContactsDirect.com](https://www.contactsdirect.com)) or 1-800-CONTACTS ([1800contacts.com](https://www.1800contacts.com)).

When you use one of the providers in Anthem's extensive network, you receive a higher level of coverage and you are only required to pay a copayment at the time of service. With an out-of-network provider, you must pay the bill in full and file a claim for reimbursement of covered benefits up to the allowance reimbursement schedule.

WHAT'S AN ALLOWANCE?

An allowance is a set amount of money the plan covers toward the purchase of eyeglass frames or other items. Here's a simple-to-follow example. If your plan includes a frame allowance for \$120 and you select frames that cost \$150, you'll owe \$30 for frames at the time of purchase. As an Anthem member, you may also receive an additional 20% off the remaining balance at participating providers – so your final cost for the frame could be as low as \$24.

WHAT'S ARE THE DIFFERENT "MATERIALS"?

Vision materials refer to frames, lenses or contact lenses offered at a provider location. Materials may come with certain limitations and exclusions regulated by your policy or by the materials manufacturer.

WHAT'S A PLAN FREQUENCY AND HOW DOES IT WORK?

The vision plan has specified frequency for each covered benefit period. If your plan frequency reads "**Once every 12 months**" on your benefit summary, then benefits will refresh 12 months after the last date of service. For example: if a member used their benefit on March 17, 2022 then benefits will refresh on that day the following year, March 17, 2023.

If your plan frequency reads "**Once every 24 months**" on your benefit summary, then benefits will refresh 24 months after the last date of service. For example: If a member used their benefit on March 17, 2022 then benefits will refresh on that day 24 months later, March 17, 2024.
