IDENTITY THEFT AND CYBER SECURITY

100%
employer paid

This benefit is paid by Heluna Health. There is no cost to the employee!

IDENTITY THEFT PROTECTION

Every employee's identity is unique. NortonLifeLock monitors for fraudulent use of their Social Security number, name, address and date of birth in applications for credit and services. You will get alerts when a potential threat is detected and it's backed by world-class service. Our dedicated specialists will work with you to resolve ID theft issues.

DEVICE SECURITY INCLUDING ANTIVIRUS

Devices, whether mobile or desktop, are a fact of every employee's connected life. It's a no-brainer that you should have real-time threat protection for those devices. Multi-layered, advanced security helps protect devices against existing and emerging malware threats, including ransomware, and helps protect private and financial information when employees go online.

HOME & FAMILY

Parents need to take an active role in how their child engages with the digital world. With Norton Family Parental Control, employees can take action to monitor their child's online activity and identify potential dangers before they become problems. This feature includes easy-to-use tools to set screen time limits, block unsuitable sites, and monitor search terms and activity history.

ONLINE PRIVACY

Online privacy is becoming harder to protect. That's why we have Norton Secure VPN to protect devices on vulnerable connections and help keep online activity and browsing history private. We also have Privacy Monitor that scans common public people-search websites to find employee personal information and help them opt-out. And SafeCam alerts users to attempts to access their webcam, and blocks those who are not authorized to access it.

SPECIALTY TRAINED AGENTS

Dedicated agents available to answer questions Monday through Friday, from 9am to 7pm EST.

Employee Benefits Member Support Line: 800-607-9174.

Urgent After-Hours Support Line: 800-543-3562
